Reason

Items Being Returned or Exchanged	Reason

To Initiate Return:

1) Please contact RacerIdentity at (618) 231-5662 to begin the Return or Exchange process. Have your order number ready. You will be given a Return Authorization number that must be put clearly on the outside of the return form and on the outside of the return box box. Any box not displaying the RA# will not be accepted.

2) A completed Return/Exchange form must accompany all returns. Failure to do so may result in the item being returned back to the original customer without a credit back to the billing account.

3) Once processed a credit will then be issued to your credit card. The credit back can take up to 2 billing cycles or longer to appear on your statement depending on your financial institution's policies.
